Section C: Storage and Transmission of Research Materials

The secure storage of data and research material is strongly recommended to all who answered 'Yes' in Section A. Please note that anyone storing participants' personal data is subject to separate legislation and requirements. Details are outlined here, and in the university's Research Records Retention Policy.

1. Does your research involve the downloading and storage on a computer of any materials relating to extremism or radicalisation (for example, records, statements or other documents)?

< H V 1 R

If you answered 'Yes' to Q1, you should request a secure file share from ITMS to be created for your project, with access restricted to you, or if absolutely necessary, any internal co-investigator(s). The research materials should not be kept on a personal computer, and all online research in this area should be done on university servers^{vii}. Physical data should be scanned and uploaded to the password-protected server; where this is not possible, it should be kept in a locked filing cabinet or similar on university premises.

You will need to agree to store all materials relevant to Section B, Q1 and Section C, Q2, as well as any other materials related to your research project in accordance with this advice in order to gain ethical approval.

Please confirm you will store all research documents in accordance with this advice by putting an X in the box.

2. Might your research involve the electronic transmission of such materials to project Co-Investigators?

< H V 1 R

Note: The Terrorism Act (2006) and the Counter-Terrorism and Security Act (2015) outlaw the dissemination of terrorist publications if the individual concerned has the intention to encourage or induce terrorism.

Please confirm you understand the risks in disseminating publications and that you will only transmit these materials to collaborators after they have been password-protected and via 'Zend' Vm **putting an 'X' in the box.**
